### MANUFACTURER PROVIDED DESCRIPTION

The new Ferretti 881, new flagship of the fleet, presents new design solutions made to optimize the spaces and the brightness of the different cabins. One of the best news is the new layout of the master cabin which presents two large open-view windows on both sides making it an incomparable suite in terms of spaces and light. Located wide in the central part of the hull, the master-cabin faces the direction opposite to the navigation, and allows the shipowner to enjoy a unique view of the sea lying down on the bed or in the Jacuzzi. Externally a very large flying bridge, provided with a Jacuzzi, bimini top and sofas, makes this area the ideal place for sharing unforgettable moments with the guests. A large garage located aft, with an hydraulic opening, stores a jet ski and becomes a wide bathroom platform. The interiors spaces and finishing made this yacht a real villa on the sea.
